

I Once Had A Dream

words & music by
John Dandrea

**I once had a dream, so long ago
why I remember it now, I don't know
but like the leaves in the wind we will blow**

**we walked through the park, the grass wet with dew
nothing but laughter for me and for you
each of us sharing the love that we knew**

**I find it so hard to show you
what you mean to me
please stay around for a lifetime
'cause there's so much to see. . . .**

**I'll show you each day, just how much I care
I'll surround you with love everywhere
a new kind of love we will share**

**I find it so hard to show you
what you mean to me
please stay around for a lifetime
'cause there's so much to see. . . .**

**I once had a dream, so long ago
why I remember it now, I don't know
sometimes we just have to let our love show**
