

Genie In The Bottle

words & music by
John Dandrea

**When I was young,
I used to dream of the Genie in the bottle
and I would wish that she were mine
she'd hear me whisper softly in the night
and she'd come, spend some time. . . .**

**now you're here beside me in the night
put your arms around me and hold me tight
I've waited for a thousand years,
just to be with you tonight. . . .**

**You are my Genie,
my midnight Lady
you are magic in my eyes
and when you show me the love you have for me
you've got me hypnotized. . . .**

**now you're here beside me in the night
put your arms around me and hold me tight
I've waited for a thousand years,
just to be with you tonight. . . .**

**No matter how far,
the distance between us
with your magic we are one
softly I'll call you, from wherever you've been to
our love has just begun. . . .**

**I've waited for a thousand years,
just to be with you tonight. . . .**
