

# More Than You'll Ever Know

words & music by  
John Dandrea

**I miss you more and more each day  
got to find a way,  
to be with you every night  
be with you every day**

**tomorrow needs to find you there  
got to show I care,  
more than you'll ever know  
more than you'll ever know**

**counting the days until you're back where you belong  
nothing is the same, it's just empty when you're gone**

**I need you more and more each day  
got to find a way  
to be with you every night  
be with you every day**

**counting the days until you're back where you belong  
nothing is the same, it's just empty when you're gone**

**I love you more than I can say  
got to find a way,  
to be with you every night  
be with you every day**

**more than you'll ever know  
more than you'll ever know**
