

Long Time Waiting

words & music by
John Dandrea

**Babe our love is a long time waiting
time's not on our side
so we make the most of moments
and hold our love inside**

**frozen wishes on the moonlight
fairy tales come true
I can't waste another moment
here so far from you.**

**Heaven waits beyond the stars
only we know where
every time I see your eyes
I know you take me there**

**Babe our love's a long time waiting
now we're through the storm
you take away the doubts and fears
and keep me safe and warm.**

**A Long Time Waiting -
A Long Time Waiting**
