

When Our Eyes Meet

lyrics: R. Neal Gracey

music: John Dandrea

**When I walk through a valley, and notice a tree top
my soul is at peace, and I have to just stop**

**like making angels in the snow, or wading through a stream
there's a most peaceful feeling, that makes me want to dream**

**Did you ever carve your name in a tree -
have you ever watched the rain in the street?
have you ever seen the birds flying free -
do you feel the same, when our eyes meet?
when our eyes meet.**

**The feeling of love, starts with birth
but along the way, too - it can sometimes hurt
but we all have to grow, in so many ways
and whenever you doubt, just try and say -**

**Did you ever carve your name in a tree -
have you ever watched the rain in the street?
have you ever seen the birds flying free -
do you feel the same, when our eyes meet?
when our eyes meet
when our eyes meet. . . .**
