

On A Wing And A Prayer

words & music by
John Dandrea

**On a wing and a prayer, at the dawn of the day
there are times when you just have to be
strong enough to turn away
from the darkness and sin, of the world where we live
we must turn to the Lord our Guide,
take the love He wants to give**

**On a wing and a prayer, at a moment in time
you will just have to give up control
picture Him upon the throne
on a wing and a prayer, we may know Heaven's there
but we just have to wait for a time
'till the day we all will shine**

**On a wing and a prayer, we will follow You there
we believe something better awaits
when we meet face to face.**

**On a wing and a prayer, on a prayer that is mine
God wants so much that none should be lost,
won't you turn to Him in time?
on a wing and a prayer, we may know Heaven's there
but we just have to wait for a time
'till the day we all will shine**

**On a wing and a prayer, we will follow You there
we believe something better awaits
when we meet face to face.**
