

It's Raining Today

words & music by
John Dandrea

**It's raining today - we can't go out and play
if the sun came out - if the rain would stop somehow
it's raining today - there isn't much to say
I want to play outside, and take my bike for a ride**

**But it's raining today - so we just have to wait
put on a happy face
we have to play inside, in a drier place**

**And the rain after all - well, it just has to fall
the rain makes the trees, so wonderfully green
it's raining today - but tomorrow's a brighter day
than you've ever seen - so we'll just stay and dream**

**It's raining today - so we just have to wait
put on a happy face
we have to play inside, in a drier place**

**It's raining today - so we just have to wait
put on a happy face
we have to play inside, in a drier place**

**It's raining today - but that's okay
It's raining today - but that's okay**
