

The background is a vibrant underwater scene. In the top left, three orange and white striped fish swim. In the top right, two yellow and black striped fish swim. On the left side, a seahorse is visible among green coral. At the bottom, there are pink and purple coral, a pink starfish, and several clownfish. On the right side, there is more green coral and two large black and white striped fish.

One Sock Off

words & music by
John Dandrea

**one sock off, and one sock on
no one knows just where it's gone
under the sofa, maybe under the chair
it could be most anywhere!**

**one sock off, and one sock on
don't know why we sing this song
guess it's fun while we look around
sing this song till your sock is found!**

**stand up now and we'll take a look
under the bed, and in your book
it's not in the toybox - I can see
one sock is hiding from you and me!**

**one sock off, and one sock on
we'll just keep on singing our song
one sock more, to cover your feet
mom gets a workout while you eat!**

**one sock off, and one sock on
don't know why we sing this song
guess it's the way we look around
and sing this song till your sock is found!**

**stand up now and we'll take a look
under the bed, and in your book
it's not in the toybox - I can see
one sock is hiding from you and me!**

**one sock is hiding from you and me
one sock is hiding from you and me**
