

If I Had It All

words: John Dandrea
music: Mikael Schulin

**well if I won a lottery, and suddenly I am told
that I am now a millionaire with pockets full of gold
and if my life turns upside down and crowds surround me here
well I would still want you, my friend I'll always keep you near,
yeah, I'll always keep you near**

**so if I had it all, it seems I'd still have to be true
and if I had it all, my friend, I'd share it all with you
and if I had it all, my friend, I'd share it all with you**

**well I am glad that my eyes are open, not blinded by the light
and all that glitters is not gold and we should not lose sight
and the greatest things in life are those that still come free
a smile, a hug, a gentle word is a gift to you and me -
a gift to you and me**

**so if I had it all, it seems I'd still have to be true
and if I had it all, my friend, I'd share it all with you
I'd share it all with you - I'd have to be true. . . .
and if I had it all, my friend, I'd share - share it with you**
