

The Way I Think Of You

words & music by
John Dandrea

**whatever the time, wherever the place
when I close my eyes, I see your face
and the way that your love has been like a rock
I love what we have, and all that we've got**

[chorus]

**'cause we're all just pasengers on an overbooked flight
and sometimes we're scared of the cold morning light
but we all have a dream, of a love that is true
that's the way I think of you -
that's the way I think of you -
that's the way I think of you.**

**onward we go, through life's ups and downs
I know that I just want you around
we know life is short and moments are few
together we're One, I feel that with you**

[repeat the chorus]

**wherever you go, and whatever will be
life doesn't come with its own guarantee
but as long as there's faith, and a love that is pure
take hold of my hand and let's walk through that door -**

[repeat the chorus and end]
