

Since I Met You

words & music by
John Dandrea

**I can feel your love - helping me be all I should be
I know it's been too long since you've seen me smile
but in every day with you, you brought the best out in me
I can't forget the love you've shown all the while**

**Since I met you, I've started again
it's all brand new
since I met you, I'm part of the plan
since I met you**

**I can feel your love - waking up with me each day
you never turn away even if I forget
when the day is through, you make sure I'm okay
your forever love makes me feel blessed**

**Since I met you, I've started again
it's all brand new
since I met you, I'm part of the plan
since I met you**

(chorus repeats and ends)
