

# *Carolina Shore*

words & music by  
John Dandrea

**Well, I've given a lot of thought to what matters the most  
and I've spent some time with Jesus, and with the Holy Ghost  
I know it's not about how much stuff you can collect  
it's the sand on your feet and the awesome sunset**

**If you need me, you can reach me at North Carolina shore  
I couldn't want any more  
all work, no play - every hour of the day  
too much stress and I just had to get away  
I'm just here for the waves - at Carolina shore  
Carolina shore - Carolina shore**

**It's true what they say that life is short, there's no time to lose  
so when it comes to freedom, you just have to choose  
don't work so much that you forget the beauty life can show  
it's the breeze on your face and the love that you can know**

**If you need me, you can reach me at North Carolina shore  
I couldn't want any more  
all work, no play - every hour of the day  
too much stress and I just had to get away  
I'm just here for the waves - at Carolina shore  
Carolina shore - Carolina shore**

*(repeats chorus and ends)*
