

# ***Night Meets The Day***

words & music by  
John Dandrea

**She is the night, and you are the day  
you both go hand in hand  
such a love, meeting this way  
footprints in the sand**

**She is a laugh, and you are a smile  
a twinkle in my eye  
such a love, I knew all the while  
finally ready to fly**

**And all along the journey was hard  
too much to comprehend  
she's still the night, and you're still the day  
her life won't ever end  
her life won't ever end**

**She is the moon, and you are a star  
a rainbow in my dreams  
such a love, I know where you are  
closer than it seems**

**And all along the journey was hard  
too much to comprehend  
she's still the night, and you're still the day  
her life won't ever end  
her life won't ever end**
